

A Startling Accident at Broadway and Eleventh Street that Might have Proved Disastrous on a Week Day—Iron, Brick, and Signs Hurled into Neighboring Houses—A Narrow Escape of a Clergyman and a Lady

The residence of Dr. William Allen, at 274 Lexington street, was considerably damaged by broken glass, but the escape of the windows of the first floor of the street was remarkable. The fact that the explosion occurred on the same side with the explosion was accounted for by the fact that the explosion was built out to the edge of the property, while the other houses on the same side stand a little back. The explosion passed air a tendency to shock that part of the street. Window glass was broken in the store at 19, five doors below. The explosion was directly opposite the store. The main force of the explosion went upward. A mass of glass broke in the St. Denis Hotel.

"Yes, sir; he's my father."
"Where do you live?"
"In Mott street—only two blocks over."
Oh, papa! I know the way."

Plan of the Legislature to Force the Bolters—How it Worked in Ohio.

PHILADELPHIA, Jan. 16.—There is a great deal of talk among the Philadelphia members of the Legislature regarding the Senatorship. Most of them have already been delivered to Oliver, and of course they pretty generally expect to be delivered to him again. The plan of the Oliver managers is to call the Legislature in the districts of the bolting members of the Legislature, which will pass resolutions denouncing the bolt. This has already been done in one or two instances. Representative Lawrence, for instance, was called in to the caucus, was instructed to be there last night by the caucus nominee, but he declined to attend, and he will not be instructed as to his duties, and will not be there for the first ballot, and therefore there would be a deadlock on the Senate Tuesday, and the first ballot will be taken on Friday after a one of a deadlock. The managers of a protracted course the fighting is likely to strike any one of a deadlock. The managers of a somewhat of a trade by which the Democrats will deliver and receive in return assurance that the Legislature will pass a reappointment bill which will not wholly leave the Senate in the hands of the bolting members. It seems to be much in this, however. The Ohio

national Temperance Society was held last evening in the Rev. Dr. Marvin E. Vincent's church of the Covenant, at Park avenue and thirty-fifth street. A chapter was read from the Bible and prayer was offered by the Rev.

Crown Prince Condemning the Anti-Jewish Movement.

BERLIN, Jan. 16.—The Crown Prince Friedrich, speaking at an institution of invalids to decidedly condemn the anti-Jewish movement. He felt especially aggrieved because the movement was spreading among the army. He contemned how intellectual men could support a cause which was to be condemned for its blindness and fanaticism. He said that the movement was so far from being a Jewish question that it was impossible that such a unhealy combination of forces could be successful. He said that he was sure that the German people would not permit the anti-Jewish movement and to enforce the law as necessary.
